

Youth Beatz 2024

In order to provide a free event we rely on our catering and fairground providers to pay a pitch fee to attend the event – the income from this enables us to provide the range of free activities we have on offer. We recognise that affordability is important to families in light of the cost of living so we have worked with providers to agree terms that are below those seen at large scale commercial events.

Below is a guide to the catering unit costs that all providers have agreed to adhere to at Youth Beatz 2024.

Please note that it is not possible to list every item that may be sold on their menus.

The below list give attendees a guide of what the MAXIMUM prices to expect at Youth Beatz, if they choose to purchase food or access the fairground rides at Youth Beatz.

Please note that attendees can bring their own packed lunches and refillable bottles to use the free water points on site – this means people can attend and enjoy Youth Beatz with out the need to spend any money.

All other activities on site are provided free of charge for all attendees.
